Canadian Politics & Government

A GUIDE TO REFERENCE SOURCES

This guide introduces reference works available in McGill libraries relevant to the study of Canadian politics and government. It includes titles on Quebec insofar as they discuss federal-provincial relations. It does not include general political science tools, many of which will have a Canadian section, as those are listed in Political Science: a Student's Guide to Reference Resources. Other guides which may be helpful are: Canadian Biography, Canadian Economics, Canadian History, Canadian Manuscripts and Archives, Native Peoples of Canada, and Quebec Studies. Although some important sources with an historical approach are mentioned, the emphasis here is on material for contemporary politics.

Government Documents

Government documents are an important source for the study of Canadian politics and government and a few of the basic sources are included here. The Government Documents Department is a depository for Canadian and Quebec government publications and has a small representative collection for other provinces, as well as a large collection of indexes and bibliographies not mentioned in this guide. Furthermore, the Department has its own card catalogue which contains many items not yet included in MUSE as well as a collection of very useful guides prepared by the department.

Locations and Holdings

Only one McGill location has been listed for each entry. MUSE should be consulted for other possible locations and, in the case of serials, for more detail on title changes and holdings.

This bibliography was revised by Doreen Morrison, Reference Department, Humanities and Social Sciences Library.
